

**AW4416 Hard Drive and CD-ROM Compatibility List
(compiled from Yamaha and Users)
updated MAR 20, 2019 • #HHNET**

Compatible CD-R/RW drives:

YAMAHA CRW6416 (internal SCSI)
YAMAHA CRW8424S-WP (internal SCSI)
YAMAHA CRW8424S-AW (internal SCSI)
YAMAHA CRW8824S-VK (internal SCSI)
PLEXTOR PX-W124TSI/BS (internal SCSI)
PLEXTOR PlexWriter 8/20 series PX-R820Ti (internal SCSI)
PLEXTOR PlexWriter 8/20 series PX-R8220Te (external SCSI)
YAMAHA CRW8424SX-WP (external SCSI)
YAMAHA CRW8824SX-VK (external SCSI)
PLEXTOR PX-W124TSE/BS (external SCSI)
PLEXTOR PX-W124TSE/N (external SCSI)
PLEXTOR PX-W124TSE/MAC (external SCSI)

Hard-drives

IBM DARA-212000 (12GB)
IBM DARA-206000 (6GB)
IBM DJSA-230 (30GB)
IBM TravelStar IC25N040ATCS04 (40GB) (part #07N8327) from googlegear.com
IBM TravelStar IC25N060ATMR04-0 (60GB)
Seagate ST980815A (80GB)
Samsung MP0804H (80GB)
Hitachi HTS541080G9AT00 (80GB)
Hitachi Travelstar ATA/IDE (40GB) model #HTS548040M90T00

Other drives

Castlewood ORB (2.2 GB Removable media)
Iomega JAZ 2GB (2GB Removable media)
IO DATA MOF-1300 (1.3GB MO)
IO DATA MOF-RM1300 (1.3GB MO)
IO DATA MOA-S640W (640MB MO)

Installing new hard drive

How do I install a new/different hard-drive in the AW4416?

If you install a new hard-drive in the AW4416, you will need to make sure it is COMPLETELY ERASED, otherwise the AW will throw up an error on boot-up and never ask if you would like to format the drive. For the IBM drives, you can use their "drive fitness test" program to erase the drive.

IBM Drive Fitness Test

Download this iso image and burn to CD-R using Deepburner, isoBurn or your favorite.
