

Job Vacancy

Web Developer: PHP, MySQL

Ebooks Corporation, Claremont, WA

DATE OF ISSUE: 30 July 2007

HOURS: Full-time or Part-time

CONTACT: Sean McHale

PAY RATE: \$60,000 - \$65,000 per annum

WEBSITE: <http://www.ebooks.com>

Be part of a team that is developing leading ebook technologies.
Strong PHP and MySQL skills required.

DETAILS:

Ebooks Corporation is a public company that has specialised in the production and distribution of digital books since 1997. The company has partnerships with 400+ publishers, including all of the world's largest trade, professional and scholarly publishers.

The company distributes its collection of 100,000+ titles to consumers via the retail portal, www.eBooks.com, and to academic and research institutions via EBL (www.ebllib.com). Ebooks Corporation also provides technology services to global book publishers and retailers.

We are looking for a versatile LAMP developer with a full range of skills in programming, server administration and security. The successful candidate will be central to the development of a new high-volume web application, which will be visited by millions of people, coming from every country in the world. If you have a proven track record and a passion for development, we have plenty of challenging work for you.

REQUIREMENTS

- BS in Computer Science or equivalent
- Administration of Apache, Linux (Debian/Ubuntu) and MySQL
- XML and Web Service technology
- Strong relational database, programming, logic and creative skills
- Knowledge of shell scripting in PHP and/or Perl
- Several years experience programming in PHP
- Experience with high-volume web application development
- Deep knowledge of HTML, CSS, JavaScript, and W3C DOM
- Ability to cleanly implement a UI across different browsers
