

## **Gaia Resources**

### **Graduate Database/Web Operator Position**

Gaia Resources is currently looking for a person to join us in a full-time role as a database and web developer. The position will start in January, 2008.

The position will involve support and development work for our internal and commercial web applications, as well as supporting a range of projects for our clients. Our clients are primarily environmental businesses, ranging in size from government departments to private companies.

Interested? We'd like you to have knowledge of:

- Coding, including;
  - Java (J2SE)
  - JSP and taglibs
  - PHP
  - JavaScript
  - HTML
  - XML, CSS and AJAX
  - Standard object orientated design patterns
  - Object Relational Mapping
- Databases, including;
  - SQL - a thorough understanding of the different SQL syntaxes used in different platforms
  - Indexing and constraints
  - Experience in any (or all!) of these: MySQL, PostgreSQL, Access and SQL Server

“Bonus points” will be given for experience in any of the following:

- Apache Tiles, HTTP Server and Tomcat
- CVS
- J2EE
- Java Topology Suite
- JUnit
- PostGIS
- Scriptaculous
- Selenium
- Spring Framework 2.0
- SQL analysis and tuning

The applicant must have a willingness to search for solutions, and a love for open source code. We also want you to have a dedication to thoroughly test your own code.

Don't have experience in all of these? We know we're asking a lot, and we're prepared to help you develop your skill base to match our wish list. We have an active professional development program for all our staff members that is tailored to their individual needs.

Salary is negotiable and will be based on your experience. The work will be based at our offices in Leederville, and we will recompense you for the use of public transport to get to and from work.

If you are interested, then send a current CV detailing your qualifications, work experience and availability to Gaia Resources at [jobs@gaiaresources.com.au](mailto:jobs@gaiaresources.com.au). If you have any enquiries about the position, feel free to call Piers Higgs on (08) 9227 7309 or 0411 754 006.

Applications for this position close on the 30<sup>th</sup> November, 2007
