SATELLITE

Innovative mobile computing for today and tomorrow

SATELLITE

SERIES

Toshiba's commitment to innovative design and premium quality delivers the outstanding range of Satellite Notebooks – the ideal desktop replacement Notebook PCs.

Perfect for the home, office and university, Toshiba's Satellite Notebooks represent the very latest technology in processing power, battery life, thermal management and Hard Disk Drive capacity. For a superior Notebook that will effortlessly integrate with the rest of your life, look no further than the impressive Satellite Range.

LOOK TO TOSHIBA

Since 1985 Toshiba has been a specialist creator of mobile computing technology. Now more people around the world use a Toshiba Notebook PC than any other brand – putting you in good company. Toshiba continues to shape this future with a significant commitment to the research and build quality required to deliver the best possible value and mobile computing experience available. It's all driven by a connection with our customers that keeps us focused on what you need out of technology – so you can stay focused on what you want out of life.

Introducing the next-generation processor, the Intel® Core™ Duo

Introducing the biggest step forward in computing since the Pentium® processor which was first introduced in the early 90s. The Intel® Core™ Duo processor is the next-generation processor in the latest Intel® Centrino® mobile technology-based notebooks and delivers revolutionary dual-core mobile performance and great power efficiency.

The Intel® Core™ Duo processor has been completely designed from the ground up for a new era of the Internet, an era where mobility is paramount and where computers need to be not only extremely powerful but also extremely power efficient.

Benefits include:

- Outstanding dual-core performance means effortless multitasking.
- Enjoy graphics intensive games or serious number crunching programs while simultaneously downloading music or running virus scanning security programs in the background.

- Super power efficiency due to the Intel® Core™ Duo processor's ability to transfer power only to those areas of the processor that need it, thereby enabling improved battery life for an enhanced mobile experience.
- Enjoy a vibrant media experience thanks to Intel® Digital Media Boost, the Intel® Core™ Duo processor delivers enhanced performance for intensive applications such as CAD tools, 3D and 2D modeling, video editing, digital music, digital photography and gaming.
- Smarter, more efficient cache and bus design for enhanced performance, responsiveness and power savings.

See the difference with TruBrite™

Toshiba's TruBrite™ technology, or Clear Super View (CSV) displays, found in all Satellite notebook PCs produce a superior picture quality. Using a specially formulated anti-reflective technology, this low-glare screen reduces the effect of ambient light for richer colours, simpler viewing in daylight conditions, and precise image reproduction even when viewed at extreme angles. Some models even contain High-Bright screens with more powerful lamps for even greater viewing pleasure.

Toshiba recommends Microsoft® Windows® XP.

CARING ABOUT THE FUTURE

At Toshiba, protection of the environment starts in product development and continues through procurement and recycling of components to the disposal of the product when it reaches end of life. We take our environmental responsibilities seriously, through:

- Toshiba Trade IT in program
- Toshiba Ecycle Program
- Toshiba Donate IT Program
- Toshiba IT partnership with Landcare Australia
- Toshiba Products RoHS Fully Compliant

We encourage our customers to contribute to Toshiba's commitment to the future through recycling pre-loved IT hardware and help protect the environment through the reduction of landfill.

All Toshiba (ANZ) Mobilecare repair agents now have recycle bins. Consumers can bring their unwanted IT equipment in to be recycled at no charge.

To find out more information on Toshiba's commitment environment or what to do with your old notebook, contact Toshiba (Australia) on 13 30 70 www.isd.toshiba.com.au or (New Zealand) 0800 441 615 www.toshiba.co.nz for your nearest MobileCare repair centre or contact your Toshiba finance partner for further information.

Explore all DVD possibilities with a SuperMulti Double/Dual Layer drive
Toshiba's DVD SuperMulti Double/Dual Layer optical disk drive reads and writes to mainstream media formats.² This means you can customise specific media to suit your AV requirements. The DVD SuperMulti Double/Dual Layer optical disk drive allows you to store up to 8.5GB – this much data on one disc means that you can store up to 16 hours of VHS video, 2,000 MP3s or as many as 17,000 JPEG images. Read and write to all current CD-ROM, CD-R, CD-RW, DVD-ROM, DVD-R, DVD-RW, DVD+R, DVD+RW and RAM discs.

NVIDIA® GeForce® Go 7 Series Graphics

NVIDIA® GeForce® Go 7400 and NVIDIA® GeForce® Go 7300 graphics processing units (GPUs) deliver all of the high definition (HD) graphics and video features as well as the outstanding performance of the award-winning GeForce® 7 Series GPU architecture to thin and light notebook PCs. With unparalleled graphics through Shader Model 3.0, incredible HD video through NVIDIA® PureVideo™ technology, and longer battery life through the NVIDIA® PowerMizer® advanced power management technology, you get the perfect combination of performance and portability for your thin and light notebook PC.

Radeon® Xpress 200M for Intel® Processors giving best-in-class PCI Express® performance with built-in DirectX® 9.0 graphics

Radeon® Xpress 200M offers a graphics core that is a derivative of Radeon® X300 technology. It is the fastest DirectX 9.0 integrated graphics platform for Intel-based PCI Express® notebooks, offering high-performance graphics for digital multimedia applications and 3D games. Radeon® Xpress 200M offers full support for Microsoft® Windows® XP, making your notebook PC a complete Multimedia Center whether at home or on the road. It is the ideal processor for media intensive tasks, digital content creation, viewing, and editing. Crisp images and smooth DVD playback are assisted by integrated video processing and motion compensation acceleration, including ATI's VideoShader™ and Fullstream™, and LCD Enhancement Engine technologies for improving video display.

ConfigFree™ ConfigFree™

As mobile computing and wireless networking becomes more popular, Notebook users need to be able to switch easily amongst various kinds of wired and wireless connections and configurations, for fast, simple connectivity in any environment. Toshiba's patented ConfigFree™ software makes wireless computing simple to manage, enabling users to easily switch profiles and devices as needed.

SATELLITE^{SERIES}

SATELLITE M50

(PSM53A-019003)

Enjoy mobile widescreen computing.

KEY BENEFITS

- Intel® Celeron-M® processor 370.
- 14" TruBrite™ XGA widescreen with CSV High-Brightness.
- 40GB Hard Disk Drive.
- Enhance your audio, web, digital video and photos with the integrated ATI Radeon® Xpress 200M graphics processor capable of using up to 256MB shared video memory (when 1GB or more in system memory).
- Express Media Player lets you instantly play DVDs and CDs without booting into Windows®.
- Toshiba DVD SuperMulti Double/Dual Layer drive.
- Premium Harman Kardon® speakers.
- Integrated 802.11b/g Wi-Fi.
- Stylish design with blue and silver case typical of more expensive models.

DVD SuperMulti Double/Dual Layer

Harman Kardon® speakers

BE YOUR OWN DIRECTOR

Connect a DV video camera to the 1394 iLink™ port found on selected Satellite models and start making movies with the pre-loaded Intervideo 'WinDVD' Creator 2 Platinum software. Then save them for sharing in whatever optical disk format your other DVD players prefer with the integrated DVD SuperMulti Double/Dual Layer drive.

CONNECT WITHOUT WIRES

Feel real freedom as the integrated wireless communication technology (using Toshiba ConfigFree™) connects you to world whether in the office, home or roaming between sites.

ConfigFree™

SATELLITE M70

(PSM73A-00K007)

Ideal desktop replacement featuring performance and reliability at a great price.

KEY BENEFITS

- Intel® Celeron-M® processor 390.
- Larger 15.4" TruBrite™ XGA widescreen with CSV High-Brightness.
- 40GB Hard Disk Drive.
- Enhance your audio, web, digital video and photos with the integrated ATI Radeon® Xpress 200M graphics processor capable of using up to 256MB shared video memory (when 1GB or more in system memory).

- Express Media Player lets you instantly play DVDs and CDs without booting into Windows®.
- Toshiba DVD SuperMulti Double/Dual Layer drive.
- Premium Harman Kardon® speakers.
- Integrated 802.11b/g Wi-Fi.

Express Media Player controls

Harman Kardon® speakers

ENTERTAINING ANYWHERE

Use your selected Satellite notebook PC as a mobile entertainment unit music and DVD movies. The clever one-touch Lifestyle Buttons bring things to life without the need to boot into Windows®. So now everybody can enjoy the action – fast.

EXPRESS MEDIA PLAYER

Play your DVD movies, and listen to your music instantly without booting into the Windows operating system. Express Media Player also features one-touch media buttons.

SATELLITE SERIES

SATELLITE M100

(PSMA0A-00G006)

Stylish and lightweight design.

KEY BENEFITS

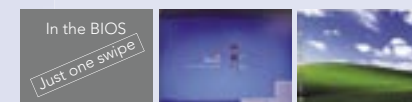

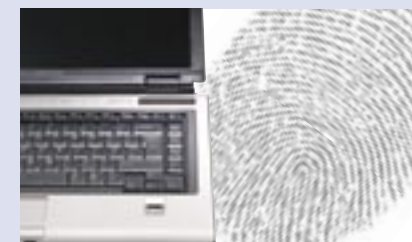

- Featuring brand new Intel® Core® Solo Processor T1300 for the next generation of processor innovation.
- 512MB DDR2 RAM for fast handling of demanding applications.
- Brilliant 14.1" TruBrite™ XGA widescreen with CSV High-Brightness.
- 60GB SATA Hard Disk Drive for faster access to your stored data.
- Drive your multimedia and gaming experience using the advanced Intel® Graphics Media Accelerator 900 (945GM) with up to 128MB shared video memory (UMA).
- Toshiba DVD SuperMulti Double/Dual Layer drive.
- Toshiba's spill-resistant keyboard** to safeguard your investment.
- Intel® 3945 PRO/Wireless 802.11a/b/g.
- Make the digital world easy with the 5-in-1 card reader adapter (includes Secure Digital®, SD-IO, Memory Stick™, Memory Stick PRO™, Multi Media Card, and xD Picture Card via shared slots).
- Premium Harman Kardon® speakers for dynamic sound quality with rich treble and bass reproduction.
- Gigabit networking to make file transfer and online gaming even faster.

Consumer Infrared Remote Control

FINGERPRINT SECURITY

Your fingerprint is as individual as you are, and therefore, the perfect tool for proving your identity and securing your privacy. The advanced Fingerprint Authentication built-in to selected Satellite models replaces all those easy-to-forget passwords with a fingerprint touchpad. Simply press your finger on the pad to gain access to your computer and secure websites! Now the ultimate security system and true peace of mind is literally at your finger tips!

Logging onto Windows automatically even in a multi user environment.

**The spill-resistant keyboard concept will help safeguard the notebook from certain small volume accidental spills and allow users several minutes to close any open files and turn off the machine.

- ExpressCard™ slot to accommodate the latest slim and fast ExpressCard devices for a completely 'sealed box' experience.

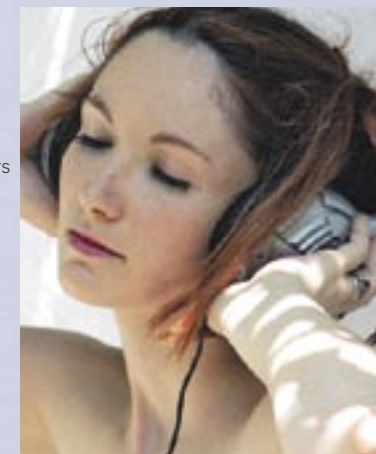

Express Media buttons

ExpressCard™ slot

SURROUND YOURSELF IN SOUND

Experience panoramic 3D sound performance with the high-fidelity Harman Kardon® 2.1 audio system (integrated satellite speakers and subwoofer) and SRS WOW XT™ software found inside every Satellite model. The brilliant reproduction of low-frequency sounds including drums, bass guitar, and synthesizers result in enhanced playback of games, DVD movies and of course, music CDs – all available at the touch of a button with Express Media Player.

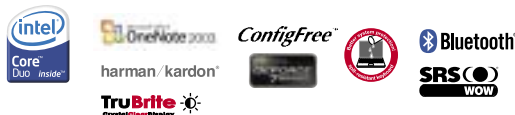

SATELLITE SERIES

SATELLITE A100

(PSAA9A-016004)

Amazing performance and true mobility.

KEY BENEFITS

- Brand new Intel® Core Duo® Processor T2300 with Enhanced Intel Speedstep® Technology to future-proof your investment.
- Large 15.4" TruBrite™ XGA widescreen with WIDEView and CSV High-Brightness for exceptional image quality.
- 512MB DDR2 RAM for fast handling of demanding applications.
- 60GB SATA Hard Disk Drive for fast access to your stored data.
- nVidia® GeForceFX™ Go 7300 with 128MB discrete memory for true-to-life high-definition graphics.
- Toshiba DVD SuperMulti Double/Dual Layer drive.
- Intel® 3945 PRO/Wireless 802.11a/b/g Wi-Fi.
- Toshiba's spill-resistant keyboard** to safeguard your investment.
- ExpressCard™ slot to accommodate the latest slim, fast ExpressCard™ devices for a completely 'sealed box' experience.
- Make the digital world easy by accessing virtually any digital card you have via the built-in 5-in-1 card reader adapter.
- Gigabit LAN networking to make file transfer and online gaming even faster.
- Biometric Fingerprint Authentication to secure your data.
- Harness advanced security and application capabilities with preloaded Microsoft® Windows® XP Pro SP2.

Dual mode™ pad

Express Media buttons

CONNECT MORE BLUETOOTH™ DEVICES

The advanced Bluetooth™ technology inside selected Satellite models enables you to connect your notebook PC to other mobile devices instantly without wires and unimpeded by line-of-sight restrictions. These devices can include projectors, printers, external keyboards, PDAs, network access points, plus many more! For example, partner your Satellite with your Bluetooth™ enabled mobile phone and enjoy email access from virtually anywhere, or make listening to your favourite music a more private experience by connecting one of the latest Bluetooth™ enabled headphones. As a founding member of the Bluetooth™ Special Interest Group (SIG), Toshiba is committed to Bluetooth™ development

and now delivers enhanced Bluetooth™ functionality in most Satellite models. In fact, with Toshiba Bluetooth™ providing you with the most Bluetooth™ profile options available today – you can connect to more devices than with any other notebook PC.

Toshiba Bluetooth™ Stack Comparison against standard Bluetooth™ Stack.

**The spill-resistant keyboard concept will help safeguard the notebook from certain small volume accidental spills and allow users several minutes to close any open files and turn off the machine.

SATELLITE P100

(PSPA3A-01N00P)(PSPA3A-01R00P)

Experience the sights and sounds of High Definition.

GENERAL P100 RANGE FEATURES

- Brand new Intel Core® Duo series CPU : Latest technology to future-proof investment.
- Massive 17.1" optimised widescreen – True High Definition.
- Harman Kardon® speakers for dynamic sound quality with rich treble and bass reproduction.
- Dual mode™ pad (never use a mouse again).
- Biometrics Fingerprint authentication– ultimate security at your finger tips.
- Awesome graphics capability with the latest nVidia 7series 128MB or 256MB discrete video memory on an ultra-fast PCI Express bus.
- Consumer Infra-red with Remote Control to control your computer from afar – ideal for presentations and entertainment.
- Save time by watching DVDs or listening to music CDs without the need to boot Windows® thanks to the range of Lifestyle buttons and Express Media Player.

- Microsoft® Windows® XP Pro SP2 (OEM) providing advanced security and application capabilities (plus Windows® Vista-ready hardware design).
- Intel® 3945 PRO/Wireless 802.11a/b/g Wi-Fi and built-in Bluetooth™ with enhanced data rate for fast wireless connectivity to the Internet, networks and other mobile devices.
- Gigabit LAN networking to make file transfer and online gaming even faster.
- ExpressCard™ slot to accommodate the latest slim, fast ExpressCard devices for a completely 'sealed box' experience. Make the digital world easy by accessing virtually any digital card you have via the built-in 5-in-1 card reader adapter.

SPECIFIC MODEL FEATURES

KEY BENEFITS (PSPA3A-01N00P)

- Intel Core® Duo T2300 processor with enhanced Speedstep technology.
- nVidia GeForceFX™ Go 7300 with 128MB discrete memory for true-to-life high-definition graphics.
- 80GB SATA Hard Disk Drive to store and safe guard your digital world.

KEY BENEFITS (PSPA3A-01R00P)

- Intel Core® Duo T2400 processor with enhanced Speedstep technology.
- nVidia® GeForceFX™ Go 7300 with 256MB discrete memory for true-to-life high-definition graphics.
- Larger 100GB SATA Hard Disk Drive for larger storage and quicker access to your digital content.

HIGH DEFINITION DEFINED

Take the home-theatre experience with you wherever you go thanks to the ultimate package of High Definition technology found inside the Satellite P100. Play High Definition Video format on the Satellite P100 ultra sharp 16:9 widescreen. Or use the DVI (Digital Video Interface) connected to show on your big screen for a true cinematic experience including Intel® High Definition Audio with S/P Dif optical audio.

SATELLITE SERIES

SATELLITE R10

(PSR10A-0XC008)

A tablet PC for power, mobility and practicality.

ConfigFree™

LIBRETTO U100

(PLU10A-00T01W)

Uncompromising power in the palm of your hands.

ConfigFree™

KEY BENEFITS

- Intel® Pentium® M processor 755 with Enhanced Intel Speedstep® Technology.
- 14" Poly-silicon T-XGA display with versatile swivel-action easily positions the screen for multi-person viewing without moving away from the keyboard.
- Quickly jot down notes on screen using the provided Tablet pen and automatically convert them into type.
- Personalise documents, messages and emails with electronic handwriting and send them to friends and co-workers – even if they don't have a Tablet PC!
- 60GB Hard Disk Drive with advanced impact protection automatically moves the HDD head to a safe position to reduce head-to-disk damage if dropped.
- Toshiba DVD SuperMulti Double Layer drive gives you the versatility of recording and playing any DVD or CD format (up to 8.5GB capacity on DL DVD).

THE HIGH STRENGTH TABLET

Built tough with a strong magnesium alloy casing and an advanced shock protection system, this Tablet will save you from the headache of losing vital data in the event of an accidental drop.

Tablet swivel action

Tablet pen

KEY BENEFITS

- Intel® Pentium® M processor Ultra Low Voltage 753 for greater power efficiency while on the move.
- 60GB Hard Disk Drive comfortably stores all of your music, videos and photographs.
- Extremely compact and lightweight at just 791 grams providing true mobile computing.
- Fully integrated wireless LAN allows you to connect to wireless networks, devices and hot spots.
- Toshiba DVD SuperMulti Dock gives you the versatility of recording and playing any DVD or CD format.
- Sophisticated security such as a biometric fingerprint reader protects access to your data.
- Magnesium alloy casing for rugged strength without the weight.
- Hard Disk Drive with impact protection automatically moves the HDD head to a safe position to reduce head-to-disk damage if dropped.

SOPHISTICATED SECURITY

A biometrical fingerprint reader protects your data by only granting access to known users, eliminating the need for you to remember a long list of complicated passwords. Advanced drop-protection including a tough magnesium-alloy body withstands impact, while an integrated 3D accelerometer senses sudden movement in any direction and parks the Hard Drive to protect data loss.

Dual pointing device

Biometric fingerprint reader

PROJECTOR S8

(TDP-S8)

'Spectator Bundle' Includes:

- TDP-S8 Projector
- Pure AV 5M Component to VGA cable.
- Centrex 120Gb Hdd SDTV Receiver.

KEY BENEFITS – S8 PROJECTOR

- Bright 2,000ANSI-Lumens for a fantastic picture even in daylight hours.
- Money saving ECO mode reduces the operating noise and expands the service life of lamp.
- Vivid picture output for both video and data projection delivered by the impressive 2000:1 contrast ratio.
- DLP™ technology generates outstanding colour reproduction, while automatic keystone correction squares up your display no matter what the angle of projection.
- Connect and switch between the full range of input devices using the push of a button.
- Compact and lightweight at a minimal 2kg for easy portability.
- Can be placed on a stand or mounted to the ceiling for space saving versatility.

- Password security function ensuring only you drive your image.
- 3 year parts and labour warranty* with a complete 90 day product and lamp replacement period.

KEY BENEFITS – CTDV100

- Fully DVB-T compliant for perfect compatibility with the S8 Projector.
- 120 GB* Hard Disk Drive (HDD) for up to 30 hours of record and playback video.*
- Tetris and Block Out games for some half time entertainment.
- Electronic Program Guide (EPG) so you always know what's on when.
- Avoid tampering from young ones with a parental lock code function.
- Enjoy the expanded information services of Teletext.
- Have your viewing preferences in order with separate TV/Radio Lists and a Favourite Group List.

FEEL AT EVERY GAME

Bring the world's biggest sporting events right into your home. Watch them live on the big-screen, or record* them first in DVD-style quality to enjoy at a time that suits you. Either way, you'll finally feel like you're at every game.

GO LARGE AND SHARP

By utilising thousands of tiny mirrors that make up a Digital Micromirror Device, the DLP™ technology in the Toshiba S8 Projector produces a very high "fill factor". This minimises the gaps between pixels and creates a digital picture that stays sharp at any size, without the pixilation effect that is often seen with other technologies.

*Subject to copyright restrictions.

GIGABEAT F20/X30/F40/F60/X60

(MEGF20(XS) / MEGX30 / MEGF40(XS) / MEGF60(XS) / MEGX60)

Because music sounds better in colour.

GIGABEAT P05/P10

(MEP05L / MEP10L)

Because music sounds better in colour.

GIGABEAT F AND X SERIES KEY BENEFITS

- Add a new dimension to your music with a vibrant full-colour screen that displays album covers and digital photos.
- An ultra-small, thin and lightweight design provides "anywhere" portability.
- Available in 20GB for up to 5,000 songs, through to a massive 60GB for up to 15,500 songs.
- SRS WOW™ provides 3D surround sound with deeper bass and crisp, accurate clarity, while 32 equaliser presets cater to all music genres.
- Also operates as a Hard Drive to back-up and transfer your PC files or digital camera data.
- Compatible with almost all popular digital formats.
- Long-life battery with up to 16 hours of playback from a single charge.*

- Plus Touch™ sensor control for effortless one-finger navigation.
- RipRec™ technology makes copying the contents of a CD as easy as a push of a button.
- gigabeat® ROOM™ conveniently organises, stores and manages files between your gigabeat® and PC (you also have the option of using Windows® Media Player 10).

GIGABEAT F20 INCLUDES

- Stereo earphones, docking cradle, plus both USB and AC cables are all included to get you into the beat.

GIGABEAT F40 & F60 INCLUDE

- Stereo earphones with remote control, docking cradle, plus both USB and AC cables are all included to get you into the beat.

GIGABEAT X SERIES INCLUDE

- Stereo earphones, plus both USB and AC cables.
- Remote control (for earphones) and docking cradle are optional accessories.

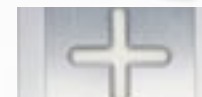

GIGABEAT FLASH KEY BENEFITS

- NEW compact design – Look great while taking your favourite music wherever you go.
- 1.1 inch OLED Screen with digital photo viewer – It's perfect for viewing your favourite digital photos.
- Digital music Player – can playback MP3, WMA and WAV files, with corresponding bit rates for MP3 and WMA files at 16~320kbps.
- FM Tuner with recorder – preset all of your favourite FM radio stations.
- Voice Recorder – Keep track of your ideas at the push of a button.
- On Screen Clock – No need to wear a watch! Gigabeat displays one of 3 cool watch designs as a screen saver.
- P05 is 512MB or P10 is 1GB storage capacity

- Windows Media Player 10 User Interface – Music can be loaded onto the player via Windows Media Player 10 and it's simple and easy to use.
- 14-Hour Battery Life* – powered by a rechargeable lithium ion battery that yields a maximum of 14 hours playback time. The battery can be recharged via USB
- Navigating the menus is accomplished by using the "plus" button in the center of the device.

Full colour screen

Intuitive PLUSTOUCH™ sensor control

*Battery life and number of charge cycles will vary depending on use and settings. Rechargeable battery has a limited service life and may eventually need to be replaced.

SOLUTIONS TO GO

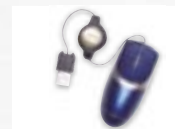

Get the most from your Toshiba Notebook with the great range of genuine accessories.

Toshiba Universal AC Adapter:
Keep one at home and one at the office!

Toshiba External USB 2.0 Mini Mobile Hard Drive: Store, access and share your data, digital photos, videos, MP3s and all other files. Available in 20GB or 40GB.

Toshiba Blue Optical Mini Mouse with Retractable Cable: Great for any small workspace such as a small airplane tray.

Toshiba High Capacity Battery:
A rechargeable and removable lithium-ion battery designed for Toshiba notebooks.

Toshiba Slim-line Silver Multimedia USB Keyboard: Includes scissor-type keycaps for greater comfort.

Toshiba and Targus Backpack:
Protect your notebook and accessories in this heavy-duty padded sports backpack. Fits up to 17" notebooks.

THE TOSHIBA ADVANTAGE

OUR INVESTMENT IN YOU

Toshiba pioneered mobile computing way back in 1985. Since then, we've lead the way in designing innovations that have become industry standards across battery life, thermal management, three-dimensional drop technology, display technology, ruggedness, optical drive and storage capability, ergonomics and ease-of-use utilities, weight savings, wireless connectivity and more.

It's what 100% focus and up to \$2.5 billion annual research and development can achieve for people. And it's what gives you the quiet confidence that your own Toshiba investment puts you ahead of the curve, and ready for success carrying the ultimate quality and reliability under your arm.

TECHNOLOGY FOR PEOPLE

Because for 20 years now we've been creating such technological advances for people's sake, not technology's. It's why today you see powerful performance plus so many other unique style, ergonomic and ease-of-use functionalities built into every Toshiba Satellite notebook PC – from the entry level M50 through to the amazing P100. And it's why our extensive network of service and support partners are ready to ensure your delight when choosing a Toshiba Satellite model for your home, business or education environment.
