

Issue eleven

Features

26 **Tim Palmer – Mixing U2**

Mixmaster, Tim Palmer, offers some insight into the mixing of U2's latest, as well as some invaluable mixing tips.

32 **Sound for the Olympic opening ceremony**

The opening ceremony was by far the largest concert event to take place in this country. AudioTechnology gets the full story.

40 **Rory Kaplan – Remixing for 5.1**

DTS guru and 5.1 old hand, Rory Kaplan, outlines the do's and don'ts of 5.1 remixing.

page 32

Tutorials

46 **Setting up a 5.1 Studio**

AudioTechnology investigates some of the fundamentals of putting together a 5.1 room.

53 **Preparing Audio for the Internet (part 7)**

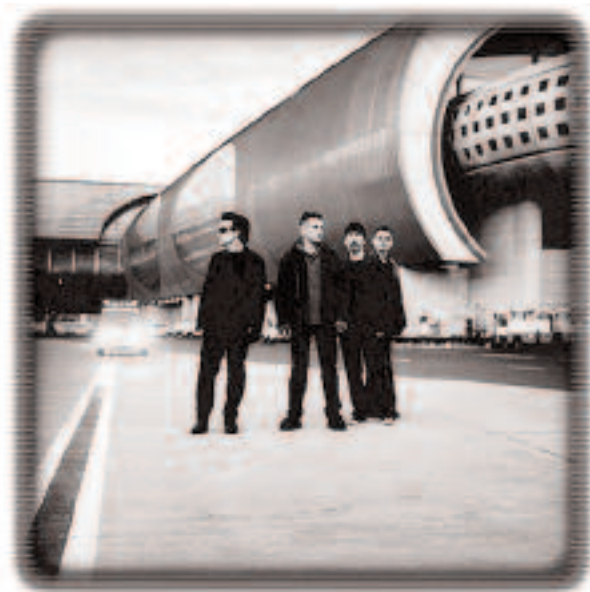

Scott Christie gives some hard facts on Liquid Audio.

56 **Stav's Word**

Part II of getting a Killer Drum Sound sees Stav divulging more industry trade secrets.

60 **Line Arrays Explained**

Line arrays are sure to play a big part of our sound reinforcement future. We explain how they work.
