

Qui Robinez, Lost In Space

32 Programs for the MOD-7 Engine in the Korg Kronos.

Thank you for downloading this soundset.

This soundset is made exclusively for the Korg Kronos synthesizer. It uses lots of the special features that the Korg Kronos Mod-7 engine has to offer.

There are 32 programs that are suited for the deep ambient space style.

When you listen to the deep ambient style you will hear lot's of sounds that are buried in very huge reverb halls where the sounds seems to live in it's own. Normally you need quite some expensive reverbs for that to make this possible, but the kronos has this possibility also when youprogram the Kronos Overb effect with your own settings.

Disclaimer:

All sounds can be used freely in any commercial and non-commercial musical production. It's not allowed to redistribute the content in this sound set without permission of Qui Robinez.

Installation Guide

The Lost in Space sound library will be loaded in program Bank locations UGG-000 till UGG-127

Be sure that you don't have any sounds in that bank that you want to save, because those locations will be overwritten. If you want to save your sounds then save your current bank with the 'SAVE ALL' or 'SAVE PCG' function.

If you don't know how to do this see the explanations in the original Kronos manuals sections:

- *Kronos Quick Start: Page 25*
- *Kronos Parameter Guide: Page 829*

To install the Lost in Space Sound Library do the following steps:

- Unzip the LOSTSPACEQR.zip file
- You will have 2 files:
 - LOSTINSPACEQR.PCG (the sound data file)
 - LOSTINSPACEMANUALQR.PDF (the Manual)
- Copy the LOSTINSPACEQR.PCG file to an USB drive (thumb drive)
- Connect the USB drive to the Kronos
- Now press the Disk Button
- Press the Load Tab on screen
- At the bottom you will see a dropdownlist where you can select your USB drive
- Select the LOSTINSPACEQR.PCG file and press the *Load* button to load the sound library in bank UGG.

(If you want to load the programs in a different bank then choose a different bank, check my video tutorial on youtube named: Korg Kronos Tutorial: 20 Loading and Saving Sounds QR if you don't know how to load and save sounds).
